

A Proud Sponsor of the CCAPA Conference in San Diego

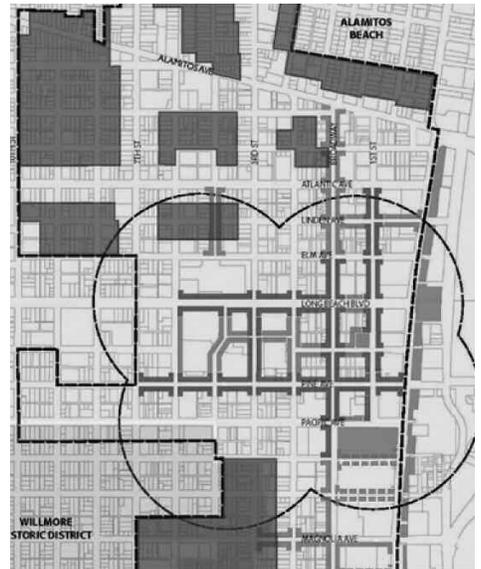

The Division of Transportation Planning plays a critical role for the Department. The division articulates a long-term vision while supporting transportation service, project selection, project delivery, and system operations. On a daily basis, staff collects and presents data, analyzes alternatives, drafts plans to guide and protect State transportation investments, and makes presentations to internal managers and decision-makers. The Division of Transportation Planning is a leader in the transportation planning field, working in partnership with others to ensure an open and equitable process while acting as a bridge between the Department's external partners and internal operations.

IMPACT SCIENCES

We are environmental analysts, planners, scientists, ecologists, permitting and entitlement specialists, botanists, biologists, and cartographers. Since we opened our doors in 1988 our philosophy has remained the same: provide excellent client service and approach the environmental process realistically and objectively. We approach our clients with respect and their projects with forethought. Contact us and let us know how we might help you. You can visit us at www.impactsciences.com or send an email to lhunter@impactsciences.com.
