Bill Introduction Approaches

The February 21 deadline to introduce new bills is approaching and APA California has already identified several of interest to planners. Proposed legislation thus far continues to offer ideas to address the housing and homelessness crisis, however several proposals have been introduced to assist LA County with recovery efforts from the devastating fires in January. We are also seeing other proposals that focus statewide on land use and fire-related issues, including the [Assembly](#) and [Senate](#) fire related bill packages.

APA California's Work in the Legislature

APA California has a robust legislative program at the Chapter level that engages with the California Legislature. The Policy and Legislation team includes an elected VP for Policy and Legislation, two appointed Legislative Technical Advisors, and a Lobbyist retained by the Chapter. The team engages directly with APA California Section Legislative Representatives from each of the 8 Sections within the Chapter to discuss feedback on legislation and other relevant issues regularly throughout the year. To view the Policy and Legislation team, visit the [Board of Directors](#) page.

APA California actively engages in many bills throughout the year. In fact, we work closely with legislative and committee staff on amendments and clarifications to bills before taking a position. As an organization, APA California is often asked to provide feedback on planning related bills and provide technical expertise, giving a voice to planners and an opportunity to help shape legislation. This is a valuable role that the Chapter works hard to maintain. More broadly, we will continue to discuss the work planners are doing at the local level to implement and keep up with all the planning related bills that pass year over year and how that relates to the cumulative impact of bills on the table this year. We also continue seek opportunities to suggest tangible ways, absent fiscal resources at the state level, that the Legislature can help to make implementation more successful and support the planning community.
